1. A fairly detailed observation of Khaskovo made it possible to locate the following four installations, which are situated in an area approximately 1.2 kilometers long, in the northeastern portion of the city:
 - a. An artillery headquarters, at present empty, the artillery regiment was undoubtedly at summer camp;
 - b. An infantry barracks of regimental size, with several recently constructed buildings;
 - c. A tank and transportation barracks; and
 - d. An officers' mess, located just beyond the infantry barracks.
2. At the western exit of Khaskovo, near the road to Khaskovo Banya, there is a radio station with two antennas, each 20-25 meters high, and a small building nearby.
3. Only a few officers and men of the artillery, infantry, tank corps, and signal corps were observed; however, there was a rather large number of airmen.
